

SHOE TREE SIZING CHART

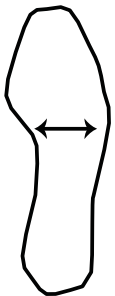

SHOETREE

singapore

FIND YOUR SIZE

1. **Align your heel with the solid line** at the base of the chart. Keep your weight evenly distributed, relax your toes.
2. The line that touches your longest toe indicates your size. If the size is not exact, **always round down**.
3. Measure both feet. You should purchase shoe trees in the **smaller of your two sizes**.

FIND YOUR WIDTH

1. When measuring your right foot, align your instep with the solid line on the left side of the chart. If the outside of your right foot crosses the Left Instep Line, size up a size.
2. Measure both feet. You should purchase shoe trees in the **smaller of your two sizes**.

For shoe sizing accuracy, we recommend printing this document on A4 paper at 100% (full size).
